About us

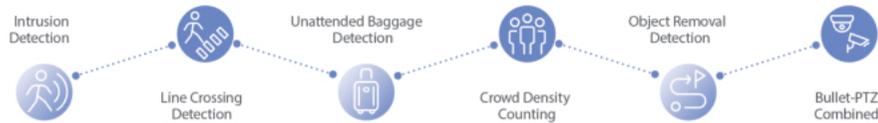

Our smart security technology delivers guaranteed protection with products from world-leading brands. We partner only with trusted manufacturers to provide you with the best security solutions for your needs.

From surveillance cameras to burglar and fire alarm systems, our solutions are designed for maximum reliability. We offer a wide range of indoor and outdoor systems tailored for both residential and commercial clients, including government agencies, airports, banks, gas stations, and many more.

Why Choose Our Security Agency?

In the area of video surveillance and alarm systems, our professional team is committed to implementing any type of security system to meet your individual requirements with our seamless and impeccable execution.

- ✔ We use certified safety products from trusted global brands
- ✔ 24/7 availability for advice, installation, and maintenance.
- ✔ All systems are installed by our experienced professionals.
- ✔ German-made mobile video towers for proven durability.

Our company provides a wide range of advanced camera solutions designed to perform in all conditions. From Normal to PTZ cameras for flexible monitoring, to thermal cameras for low-visibility environments, and panoramic cameras for wide-area coverage. We deliver the right technology to meet every security need.

Our Mission

At SMART Company, we lead in advanced security and smart technology. With years of expertise, we provide reliable, innovative, and tailored solutions to protect people, property, and assets.

Guaranteed Security

By integrating our systems – including video surveillance, access control, fire alarms, and mobile video towers – we deliver a comprehensive security solution tailored to your needs. Our systems are designed for both private households and commercial or industrial sites. Whether for construction areas, retail spaces, or government facilities, SMART ensures that your security operates flawlessly, providing you with complete peace of mind. We are available around the clock, combining expertise and advanced technology to keep you safe always.

24/7 Emergency Call Center

Our dedicated emergency call center ensures rapid and efficient response to all alarm notifications. Our trained professionals are available 24/7, ready to take immediate action in case of any emergency.

Through the integration of cutting-edge technology and professional security personnel, we deliver tailored and effective security responses. We also collaborate with local authorities and emergency services to ensure quick, coordinated interventions.

AJAX Alarm System – The Next Generation of Security

AJAX is not just an alarm, it's a complete smart protection system designed for homes, offices, shops, and large facilities. With its European award-winning technology, AJAX delivers maximum reliability and ease of use in one stylish solution.

Wireless Freedom: Quick installation without cables, with long-lasting battery life.

Smart Mobile App: Arm, disarm, and monitor your property from anywhere in the world.

Instant Response: Receive real-time push notifications, SMS, or calls in case of any intrusion, fire, or emergency.

Comprehensive Protection: Motion detectors, glass break sensors, door/window contacts, smoke and flood detectors, sirens, and more.

Modern & Elegant Design: Devices that fit beautifully into any interior.

Scalable & Flexible: From small apartments to large commercial sites, AJAX adapts to your needs.

We deliver cutting-edge security and fire alarm solutions, powered by world-class technologies from leading global brands such as JABLOTRON, TELENOT, AJAX, and more ensuring unmatched safety, reliability, and peace of mind.

Our Featured Projects

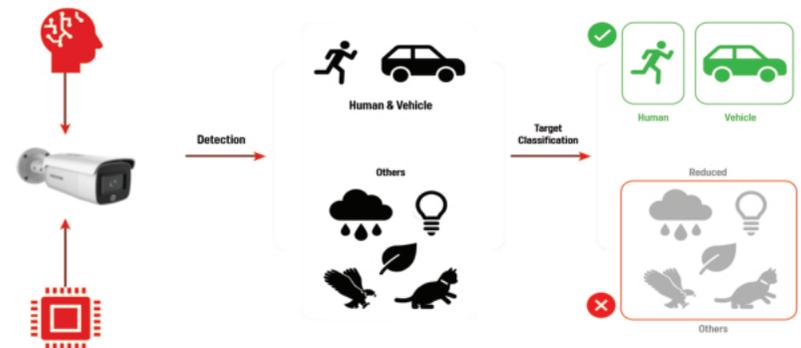

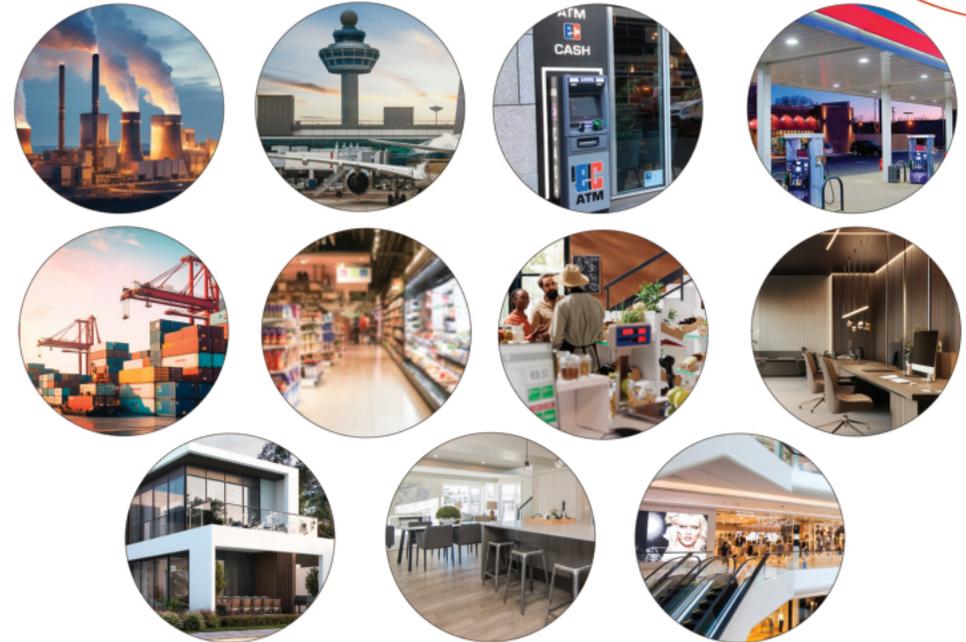

Our technology enables seamless wireless camera connectivity to the NVR, with a range of up to 4 km no cables required.

Security Solutions for Every Sector

We provide tailored security systems for a wide range of industries and environments including:

Factories - Airports - Hotels - Warehouses - Banks - Gas Stations - Schools - Supermarkets - Solar Farms - Shopping Malls - Highways - Parking Lots - Onshore Oilfields - Stores - Offices - Car Dealerships - Bus Stops - Ports - Houses - Apartments - Monitoring Centers

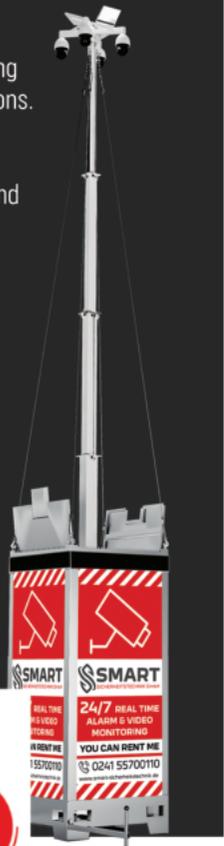

SMART Mobile Video Towers

Our advanced mobile video towers deliver the highest level of security with cutting edge technology and Ai, engineered specifically for demanding outdoor applications.

- Telescopic mast extendable up to 6 meters – versatile and adaptable for a wide range of uses.
- Heavy-duty load-bearing mast – designed to support CCTV cameras, lighting, and other equipment.
- Pre-configured mast tip – simplifies the mounting of standard systems.
- Manual, CE-certified hand winch (900 kg capacity) – guarantees safe height adjustment.

Available configurations:

- ✓ SMART Nano
- ✓ SMART-Solar
- ✓ SMART Solar Pro
- ✓ SMART Mini Solar (available with Alarm or Alarm + CCTV)
- ✓ SMART Easy

Innovative Security and Smart Technology Solutions

We provide only the highest-quality products from renowned manufacturers, ensuring superior reliability and protection. Our expertise includes tailored solutions for mobile video towers, helping you safeguard any site effectively.

Security Systems for Ultimate Protection

Our video solutions are built for high reliability, scalability, and ease of use. Designed for every environment – retail, banking, government, industry, and private sectors – they combine cutting-edge technology with user-friendly operation.

We continuously enhance our systems to offer the most advanced and innovative solutions, including:

- Line Crossing Detection
- Face Detection
- Intrusion Detection
- Object Removal Detection
- Unattended Baggage Detection
- Audio Detection

Our Core Solutions

CCVT System
High-quality video surveillance products with AI-driven technology for smarter monitoring and enhanced security.

Burglar Alarm Systems
Instant alerts for any suspicious activity – directly to your device. Our alarm systems combine speed and reliability to protect what matters most.

Mobile Video Towers
Equipped with high-resolution PTZ cameras, motion detection, night vision, and AI-powered analytics for continuous 24/7 monitoring.

Fire Alarm Systems
Advanced systems for rapid detection and automatic alerts, providing maximum protection and peace of mind.
